

Truely Insulated Wall Panel

Composite Sandwich Insulated Panels used by Conewago Manufacturing offer essential components that protect your investment.

Max Height: 60'

Widths: Standard 13'

Maximum 14'

Insulation R-Value: R-17.58

Concrete Strength: Above 6,000 PSI

Fire Rating: 2 Hour Typical

***Load bearing wall panels**

We use CarbonCure Technology

The level of thermal performance offered in these insulated panels is an essential component with every project we do!

These energy efficient, water-resistant insulated panels provide edge-to-edge coverage in any application!
